

# Flash Cards Privacy Policy

## **What data do we collect?**

We collect your Quizlet username and information from it, such as your created and favorited sets, as well as the data inside them, to identify which sets you use with Flash Cards.

## **How will we use it?**

We only use this data to deliver Flash Cards' function; that is, to help you quiz yourself by asking you questions from your Quizlet flash cards and identifying if you answer them correctly.

## **What information do we share?**

Your data stays with us. We will not share your data unless it's with Quizlet (who probably has it already) or Google (which Flash Cards runs on.)
